

MAGIC & MANIFESTATION

What Does It Really Mean?

*Copyright Stella Woods
August 2008*

MAGIC

The word 'magician' comes from an ancient Persian word 'magus' – plural 'magi'. The root of the word 'magus' means 'great, magnanimous and generous'.

The original Magi were astronomers and members of the Zoroastrian priestly caste of Persia founded by the philosopher Zarathrustra (700 BC) whose name means 'Golden Light'. They were devoted to truth and wisdom, highly educated and worked with natural environmental forces and the stars. The three wise men referred to in the Bible were Magi - in cosmic lore symbolised by the three stars in the belt of Orion.

Their 'magical' powers came from a knowledge of the natural and scientific order of things – the cosmos, the seasons, the elements etc and they advised their leaders on matters ranging from sacred geometry and mathematics (how to build temples and cities) to agriculture (when to plant and harvest) to military strategy (when to go to war).

These original 'magicians' simply had more advanced knowledge than the cultures and people surrounding them. That's why they seemed to possess magical powers. They just knew more.

MANIFESTATION

The word 'manifestation' comes from the Latin verb 'manifestare' which means 'to make public. But it can also be split into two other Latin words - 'manus' meaning 'hand' and 'fendere' meaning to strike. It is interesting that the magician holds the magic wand in one hand and then points the other hand towards the ground in a striking action. He is channelling the cosmic energy via the wand and commanding it to appear in a three dimensional form on the earthly plane.

**CHECK OUT THE FEEDBACK FROM
STELLA'S MAGIC & MANIFESTATION WORKSHOP**

(HELD IN MELBOURNE, AUGUST 2008)

Many of us are looking to spruce up our lives and inject a bit of sparkle! We've all heard about 'The Secret' and 'The Law of Attraction', but most people struggle to put the principles of 'The Secret' into action. (Where exactly is my beautiful new car /home /partner / flat stomach??!!)

This two day workshop will not only help you identify and focus on your dreams, but send you away with some wonderful and effective magic tools to make them come true in real life!

Here's what those who attended had to say.

- *I'm so excited about my vision board and am looking for a good spot to put it.*
- *Glenda's been going great guns since the weekend with her business dreams starting to unfold for her.*
- *When I was at work yesterday, we had not one, but two email enquiries about our services from overseas- one from Norway and one from the Arab Emirates! Two in one day, and the potential for a couple of jobs to come our way!*
- *Thank you for the workshop - I did enjoy myself!*
- *My husband said this morning 'God this stuff works really fast doesn't it!'*
- *I found the tools to move forward really helpful - plus it was such a luxury to have a whole weekend to myself to think about things in a purposeful way. I also had the opportunity to get started on my vision board: which is something I have wanted to do for a long time....*
- *I really enjoyed your presenting style and sense of humour.*

- *I wanted to thank you so very, very much for all the wonderful and meaningful information shared. It was a great weekend and I enjoyed learning more about what stops me from obtaining what others have. Also, you allowed me to bury the past, move forward and give my life back to me again. The magic that you shared ... I will use on my journey of life with intention.*
- *Have you thought about making a recording of your guided meditations and "Walk Into The Future" onto CD available for purchase? It would be a wonderful tool to have on hand, for people like myself who need to be "guided".*
- *I just wanted to thank both you and Howard for putting together such a magical weekend. The lights came on for me!*
- *Thank you for an enlightening, enlivening and thoroughly enjoyable weekend!*
