

SEDUCING AN AQUARIAN

Tackling the North Face of Everest?

*Copyright Stella Woods
January 2009*

How can you possibly seduce a person who values freedom above all else. It just wouldn't be fair would it? A left field approach is therefore recommended...

TIPS FOR MEN

It pays to be a little off beat when seducing an Aquarian girl. She's not interested in straight laced behaviour, conservative attitudes and jobs that might impress more middle of the road creatures. Tell her how you'd like to make the world a better, fairer place and she'll be impressed straight away. And remember - an Aquarian doesn't really need a partner. When you're busy saving the world or running the local dramatic society it's easier hanging out with groups rather than individuals. So what can you do? Show her that she needs time out and take her out to the country for a long walk or picnic. Tell her you like her.

TIPS FOR WOMEN

Most Aquarians are way ahead of their time, but suffer for this as others find them eccentric. Show him you care by listening to his plans for world peace, a cure for AIDS, improving the human condition or whatever else he might be interested in. You certainly won't be bored, he's an original thinker. However you'd better enjoy listening, because this air sign male has plenty to say and he never stops thinking. Air sign does not mean light on either. He'll leave you for dead if you try and make fun of him. Take him to a serious movie then out for coffee, cake and chewing the fat. He'll enjoy your ideas.

All about Aquarians

From the 20th January to the 18th February the Sun travels through fixed air sign Aquarius, noted for its egalitarian nature, progressive ideas and humanitarian bent. Aquarius is the eleventh sign of the zodiac with keywords "I am different" and "I am detached". Aquarians are both radical and immovable at the same time. They will often espouse a social or religious movement such as feminism, Buddhism or environmentalism and then remain committed to it for the rest of their lives. Those born under the sign of the Water Bearer often look to the future and have fine minds and a higher vision for society. Many Aquarians excel in the areas of science, technology and politics. At best they use their cool headed idealism to serve humanity. Negatively, Aquarians can be detached and aloof with a rebellious or

fanatical streak. In medical astrology, Aquarius rules the calves, ankles and general circulation. When Aquarians are out of balance they can suffer from varicose veins, sprained ankles, irregularities of the heart action and fluid build-up. The Aquarian colours are turquoise, aqua and silver. Aquarius's greatest lesson is to learn to care for individuals rather than groups.

How to handle an Aquarian

Don't waste your time. They do pretty well handling themselves and you will not be invited back if there's even a hint of manipulative behaviour! Aquarians are often accused of being detached and unfeeling. Not only are they an air sign (focus is mental rather than physical or emotional) but the role of an Aquarian is to save the planet not buy you flowers or cook you dinner! So good luck with the 'handling'the only thing I can suggest is join their cause and be an ally and friend.
